Domaine Augustin

ADEODAT BLANC

Appellation Collioure Protégée

The Vines

Soil : steep slopes of schist near Banyuls, between 10 and 130 meters in altitude.

The old vines are planted following a high density system and we can find several types of grapes in the same parcel.

Grape variety : Grenache gris.

Vinifications

Low volumes harvested by hand.

Grapes are vinified with a great care, they're slowly press to keep all the best.

Aged 8 months in oak barrel.

Bottled at the end of March.

Tasting

This pure Grenache gris could be compare to a "blanc de noir".

In his youth he can be quite austere but with few years he might develop his true personality with more density.

It can be paired with land-and-sea cooking as monkfish tail with chorizo.
